Currently **Founding Account Executive at Shore** · Berlin

Tayyeb Hussain

Sales × Tech · Enabling people · Making complex things simple

Sales professional with an engineering background – PayPal Solution Engineer, Accenture, B.Sc. Media & Computing. I connect people, products and technology: I understand complex solutions, explain them in business language and turn pain points into action. When a tool is missing, I build it myself with AI. I love working with people, making their lives easier and explaining complex tech to non-technical stakeholders.

650+ qualified leads sourced by a tool I built

7 custom AI agents in my sales system

0 → 1 outbound motion built as founding AE

4 companies across payments & SaaS

EXPERIENCE

Founding Account Executive (Outbound) · Shore GmbH

Sep 2026 – Present · Berlin

SaaS POS, booking & payment solutions for service businesses

- Building the outbound motion from 0 to 1; full-cycle sales from prospecting to close.
- Built my own sales tooling with Claude Code and own the outbound tech stack: tool selection, setup and optimization.

Lead Finder

Sources businesses via Google Maps, detects 20+ booking systems and pain points from reviews, scores every lead 0–100% (A/B/C). **650+ qualified leads.**

Outbound Brain

AI sales system with 7 agents for research, enrichment, scoring, call prep and debriefs. 12 personas, competitor matrix (9 vendors × 38 criteria).

Funnel Calculator

Models the calls needed to hit quota and the biggest lever; switches automatically from assumptions to real call data.

Career Break · Family Care

Jul 2025 – Aug 2026 · Berlin

- Full-time caregiver for my brother.

Senior SDR · Volt – Real-time payments

Mar 2024 – Jul 2025 · Berlin

- Built pipeline through prospecting, lead generation and qualification across DACH – high-risk verticals (crypto, financial services/wealth-tech, gaming & gambling) and low-risk (retail, e-commerce).
- Designed and executed strategic outreach campaigns with Business Development Directors.
- Contributed to RFPs through cross-functional collaboration.

EXPERIENCE continued

IT Consultant – Payments & FS · Accenture
Aug 2023 – Mar 2024 · Berlin

- Consulted banks on requirements analysis and solution design, translating business needs into actionable technical specifications.

Solution & Integration Engineer · PayPal
May 2021 – Jul 2023 · Berlin

- **Solution Engineer:** partnered with AEs, CSMs and enterprise clients on tailored solution design, mockups and demos that simplified complex integrations and helped close large enterprise deals.
- **Integration Engineer:** merchant-facing integration consulting, proactive technical support and code snippets for a swift go-live.
- Led the EMEA gaming & gambling vertical from a solution and integration perspective – blueprints and lead generation support.
- Fed merchant feedback back to Product and streamlined go-live processes with AEs and CSMs.
- Enabled sales on technical selling; interviewed and onboarded two new hires and improved the global onboarding plan.
- Technologies: REST API, NVP/SOAP, GraphQL, JavaScript, Postman.

Full-Stack Developer / Consultant · Smart Energy Link AG
Sep 2019 – Apr 2020 · Switzerland

- Implemented new features with TDD and Scrum, including the control panel for EV charging stations.
- Advised clients on how to monitor energy consumption effectively.

PROJECTS

Websites · private projects · 2026

- **Creator portfolio:** personal brand site for a Berlin UGC creator & model – services, reels, stats and brand collaborations.
- **Real-estate broker relaunch:** rebuilt a 40-page website including a property valuation tool built on official open government data (NRW property value zones), replacing a paid third-party tool.

Products · private projects, in progress

- **DermaFinder:** health information platform – 22 skin conditions, 160 cited sources, 3D skin cross-section, evidence-based ranking of 60 products.
- **Content Intelligence:** AI social media analytics studio (Python, Streamlit, Claude) – profile checks with lift multipliers per format, topic and weekday, reel analysis, competitor comparisons and content plans.
- **Shinobi & Grand Line Atlas:** spoiler-free character atlases for Naruto and One Piece that unlock content up to your current episode (DE/EN).

WHAT I BRING

Tech depth + sales instinct · Complex topics in business language · Enterprise deal support · Building outbound from scratch · AI-powered workflows · Payments & SaaS know-how
