Tayyeb Hussain

GTM × Tech · I build the systems behind growth

Go-to-market professional with an engineering background – PayPal Solution Engineer, Accenture, B.Sc. Media & Computing. I drive revenue and build the systems behind it myself – from outbound to content to automation. I explain complex topics in business language and turn data into concrete next steps – in the sales funnel and on Instagram.

5,000+ qualified leads sourced by a tool I built

1,700+ posts analysed for data-driven content plans

0 → 1 outbound motion built as founding AE

4 companies across payments & SaaS

EXPERIENCE

Founding Account Executive (Outbound) · Shore GmbH

Sep 2026 – Present · Berlin

SaaS POS, booking & payment solutions for service businesses

- Building the outbound motion from 0 to 1, full-cycle from prospecting to close; I own the outbound tech stack and build my own tools with Claude Code.

Lead Finder

Sources businesses via Google Maps and Instagram, clicks through their booking buttons via scraping, scores leads 0–100% (A/B/C); map with heatmap. **5,000+ qualified leads.**

Outbound Brain

AI sales system with 7 agents for research, enrichment, scoring, call prep and debriefs. 12 personas, competitor matrix (9 vendors × 38 criteria).

Growth & Content Marketing · projects & clients

2026 – Present · Berlin

Data-driven Instagram growth for micro-influencers and a real-estate broker

- **Content Intelligence** (private project): benchmarks every Instagram post against the profile median – by format, topic, weekday and caption length (Meta API).
- Turns it into action: 3 to-dos per week and a weekly plan with format, posting time and hooks from 1,761 analysed posts; reel analysis and competitor benchmarking.
- Automated content production: carousel and reel generator in the brand design, with contrast and readability checks.

Career Break · Family Care

Jul 2025 – Aug 2026 · Berlin

- Full-time caregiver for my brother.

EXPERIENCE continued

Senior SDR · Volt – Real-time payments
Mar 2024 – Jul 2025 · Berlin

- Built pipeline across DACH through prospecting and qualification – high-risk (crypto, wealth-tech, gaming & gambling) and low-risk (retail, e-commerce).
- Designed outreach campaigns with Business Development Directors; contributed to RFPs cross-functionally.

IT Consultant – Payments & FS · Accenture
Aug 2023 – Mar 2024 · Berlin

- Consulted banks on requirements analysis and solution design, translating business needs into actionable technical specifications.

Solution & Integration Engineer · PayPal
May 2021 – Jul 2023 · Berlin

- **Solution Engineer:** partnered with AEs, CSMs and enterprise clients on tailored solution design, mockups and demos that simplified complex integrations and helped close large enterprise deals.
- **Integration Engineer:** merchant-facing integration consulting, proactive technical support and code snippets for a swift go-live.
- Led the EMEA gaming & gambling vertical from a solution and integration perspective – blueprints and lead generation support.
- Enabled sales on technical selling; hired and onboarded two colleagues, improved the global onboarding plan and go-live processes (REST, NVP/SOAP, GraphQL, JavaScript).

Full-Stack Developer / Consultant · Smart Energy Link AG
Sep 2019 – Apr 2020 · Switzerland

- Implemented new features with TDD and Scrum, including the control panel for EV charging stations.
- Advised clients on how to monitor energy consumption effectively.

PROJECTS 2026

- **Lead Finder (Shore):** sales prospecting tool – sources businesses via Google Maps and Instagram, checks their booking paths via scraping, scores leads 0–100%; 5,000+ qualified leads.
- **Real-estate broker relaunch:** website integrated with the onOffice CRM, a custom valuation tool replacing a paid one, mobile PageSpeed 47 → 89.
- **Content system for the broker:** carousel, story and reel generator in the brand design, guide PDFs as lead magnets.
- **Content Intelligence (private):** Instagram analytics with a weekly plan for micro-influencer friends.
